Office of Materials and Research
Qualified Products List

Restrictions due to adverse performance issues noted as follows:

- (1) Dump station operator must not be able to override primary MTV operators control over material feeders/conveyors.
- (2) MTV must be used in conjunction with a minimum 22-ton capacity insert in the paver hopper.
- (3) Hopper insert must be equipped with two full length transversely mounted paddle mixers.
- (4) Hopper inserts using a circular targeting device are not approved for use on GDOT projects.
